OUR SUCCESS STORY

OUR PEOPLE

We employ a core team of exceptional individuals and draw on a wide array of professional associates and support personnel on an as-needed basis. EGAI has a diverse human resource capacity that consists of individuals that have worked on international, national and local

levels with proven track records of delivery in the education, training and development programmes to the state, private and non-governmental sectors. Within our pool of professionals are people that have worked extensively in all corners of the world. It should be noted that our staff and Associates come from a host of backgrounds including Engineering and Management, business and civil society organizations.

THE WAY WE STRUCTURE AND DELIVER OUR COURSES

Our courses are tailored to client's needs with a structure that is flexible and designed to match students' available time and budget. EGAI produces its own materials and on an as-needed basis can source reputable materials on the open market. We are also able to provide off- and on-site training.

OUR SUCCESS STORY

OUR GUIDING PRINCIPLES

We pursue the highest quality in all our training intervention by ensuring that our materials are relevant and unit standard aligned; our facilitators are experts in their field and experienced Engineering professionals and that our approach to learning is both visionary and innovative. We work hard in gaining our principles day and night.

OUR SOCIAL RESPONSIBILITY

As part of our commitment to social development, EGAI has initiated its 'Leaders for the Future' Youth Development Project, which aims to build leadership capacity of emergent leaders from previously disadvantaged communities. Our Higher Education and Training Certificate: Development Practices forms the cornerstone for our interventions.

OUR SUCCESS STORY

OUR NETWORKS

Collectively, EGAI owners, staff and associates are able to draw on a wide range of influential role-players through their active involvement in education, training and development for more than 23 years.

We have provided training interventions to large and small corporate and Educational institutions throughout India and internationally.

We have the strongest network among the topmost international Companies.

THE PROGRAMMES THAT WE OFFER

We have an outstanding track record in delivering responsive high quality courses to all sectors of Engineering institutions & corporate world which we are able to customize to the clients' needs, time frames and budget.

The core Industrial Programmes specially designed for higher level & Industrial level of knowledge gaining and learning are as follows :

- Industrial Automation 4.0.
- Oil and gas Plant Engineering.
- Piping Engineering.
- Quality (Qa/Qc) Engineering.
- ASNT level 2 Certification NDT technician.
- Embedded systems.
- Robotics.
- Instrumentation.
- MEP HVAC.
- Labview.
- Matlab.
- Autocad (2 D and 3 D).
- Hydraulic Systems.

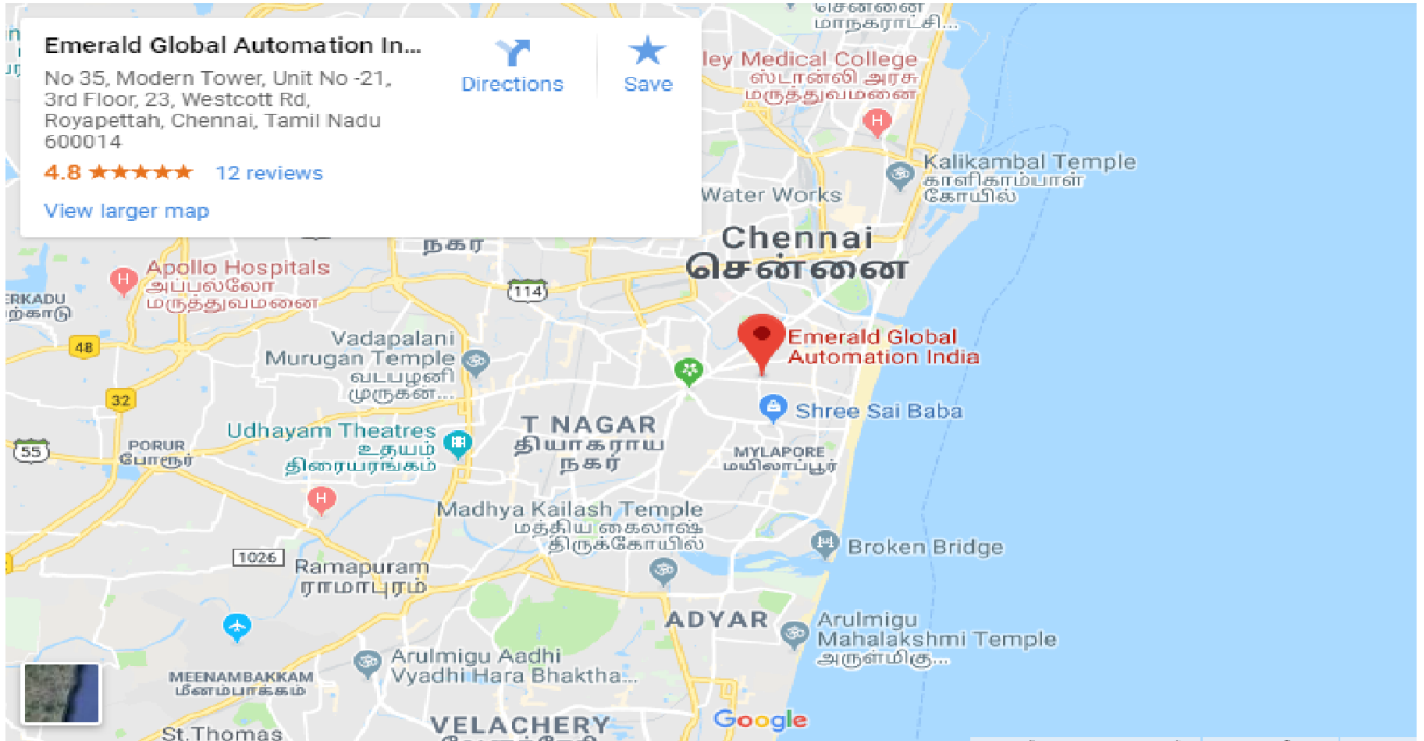

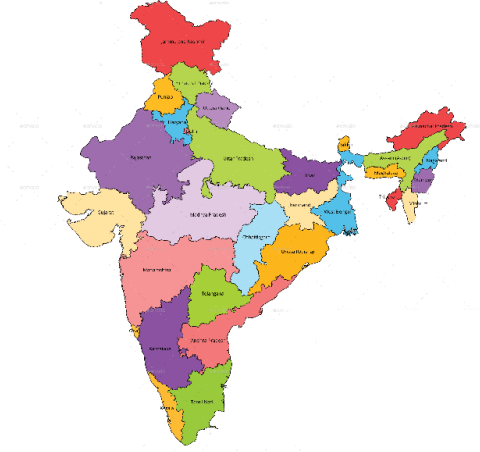

OUR LOCATION

Address : Unit No 21, 3rd Floor, Modern Towers, West cott road, Royapettah, Chennai, TamilNadu, India.

Zipcode : 600014

OUR SUCCESS STORY

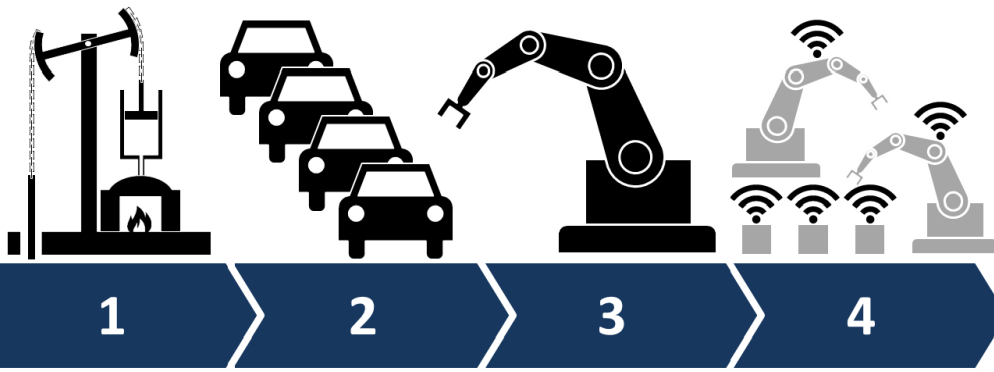

EGAI salutes the GREAT INDIAN VISIONARY

"Teaching is a very noble profession that shapes the character, caliber, and future of an individual. If the people remember me as a good teacher, that will be the biggest honour for me."

- Sir A.P.J Abdul Kalam

Get the actual Industrial 4.0 experience through
EMERALD GLOBAL AUTOMATION

EGAI's INDUSTRY 4.0 CONCEPT

Industry 4.0 is a name for the current trend of automation and data exchange in manufacturing technologies. It includes cyber-physical systems, the Internet of things, cloud computing and cognitive computing. Industry 4.0 is commonly referred to as the fourth industrial revolution.

Industry 4.0 creates what has been called a "smart factory". Within the modular structured smart factories, cyber-physical systems monitor physical processes, create a virtual copy of the physical world and make decentralized decisions. Over the Internet of Things, cyber-physical systems communicate and cooperate with each other and with humans in real-time both internally and across organizational services offered and used by participants of the value chain.

**WE ARE THE REAL HEROES OF
INDUSTRY 4.0 CONTROLS**
